The *Benefits* of Memory Care
at The Bridges at Warwick

Home vs. a Memory Care Community

If you're caring for a loved one with Alzheimer's disease or related dementia at home, you understand the unique challenges caused by memory loss. Even simple tasks, such as dressing, bathing and eating, require your assistance and supervision. Memory-related problems such as wandering and sundowning (confusion and agitation that become more pronounced later in the day) require constant attention and patience.

While you may turn to professional in-home care to help provide the 24-hour supervision and attention that is needed, is that level of care sufficient?

It depends on what you want for your loved one. Offering The Vista Transitional Living for early-stage memory care and The Vista Comprehensive Memory Care for more advanced needs, The Bridges at Warwick provides the 24-hour care, personalized assistance and security that's needed, as well as a lifestyle and setting designed specifically for those with Alzheimer's or dementia.

Advantages of Memory Care at The Bridges at Warwick

Services: Your loved one will enjoy 24-hour care, private or shared apartment, meals and snacks, personal assistance with grooming, bathing, dressing, walking, eating and more; housekeeping and laundry, a variety of multi-sensory activities designed to engage residents and foster well-being and participation in the FOX Optimal Living program provided by FOX Rehabilitation™ for optimal wellness.

Purposeful Design: Designed for freedom and security, The Vista neighborhood features spacious private or semi-private accommodations along with two sunrooms, a living room for relaxing (or visiting with family and friends), a large lounge, a beautiful dining room and a secure outdoor patio. The Vista Transitional Living program is a distinctive living option exclusive to The Bridges at Warwick. Designed to support residents who have early-stage memory loss, this program is for those who do not need a secure environment.

Experienced Specialty Staff: The Bridges at Warwick is staffed by compassionate and specially trained caregivers who understand Alzheimer's and other dementias.

Dining: Residents of The Vista enjoy delicious meals in their own dining room, including three meals a day plus snacks.

Specialized Programming: Your loved one will enjoy a variety of multi-sensory activities designed to engage residents and foster well-being. If your loved one is in The Vista Transitional Living Program, he or she will enjoy a fun and therapeutic experience through a variety of activities, including cooking, exercise, religious and special events, and word games and puzzles. All activities are offered in smaller groups, encouraging involvement and eliminating loneliness and boredom as well as slowing the decline of cognitive skills.

Security: The Vista neighborhood is a secure environment for those with advanced memory loss.

What to Look for When Selecting a Memory Care Community

When choosing which community best suits your loved one, there are a variety of factors to consider, including present and future needs, personal preferences and your loved one's financial situation.

Most Important Considerations:

- Poor eating habits. Weight loss. Declined interest in cooking.
- History, reputation and financial stability of the community
- Expertise/training of staff
- Type of living accommodations offered
- Scope of services offered (including health services)
- Quality of programming offered
- Variety of amenities offered
